

# The Castle Cursed - Sample Wizard Card

(Beast - Lord) Arkin of Slith

Secret Number: 32

You are the leader of your pack and understand the importance of a rightful ruler being on the throne. You care little for the battle between Humans and Beasts. What really matters is that the two sides maintain their honor. Of course this means that Lords must rule, not the base-born Serfs

	<b>You</b>	<b>Lord</b>	<b>Serf</b>	<b>Other</b>	<b>Cursed</b>
<b>Rules Marus</b>	+2000	+1000	-2000	-2000 *	
<b>Rules Kida</b>	X	*	*		+1000
<b>Rules Sorrell</b>	-	+2000	-3000		-10,000
<b>Dies</b>	-10,000 *		+2000		
<b>Curse Lifted</b>	-1000				
<b>Any Human rules Kida</b>	*				
<b>Other Beast rules Kida</b>	+2000				

As Arkin is a Beast (instead of Human) and Lord (instead of Serf), he can work with other Beast Lords, Human Lords and Beast Serfs to some extent. He wants to Rule Sorrell, but if he can't, then ruling Kida and having another Lord ruling Sorrell is also good. He can even do better if he rules Sorrell and he can get another Beast Lord on the throne of Kida.

However, if Sorrell is cursed - he's sure to lose.

Like most (but not all), dying is also to be avoided.
